

6U Outdoor Network Cabinet

SKU: 5879 | 600 × 450 | IP55

Product Overview

The HezzraLink 6U 600 × 450 Outdoor Network Cabinet is an IP55-rated enclosure designed to protect networking, fiber optic, surveillance, and telecommunications equipment in outdoor environments. Its wall-mount design, steel construction, secure locking system, and built-in cooling support make it suitable for demanding field installations.

Rack Capacity	6U
Protection	IP55
Steel Thickness	1.1 mm
PDU	Not Included

Key Features

- IP55-rated outdoor cabinet for dust and water resistance.
- 6U rack capacity suitable for compact outdoor network installations.
- 600 × 450 mm cabinet format with wall-mount design.
- 1.1 mm steel construction for reliable outdoor enclosure strength.
- Front lockable glass door with secure side access.
- Built-in cooling fan support for improved internal ventilation.
- Suitable for fiber optic systems, telecommunications, surveillance systems, outdoor networking, and IT infrastructure.

Typical Applications

Fiber optic systems | Telecommunications | Surveillance systems | Outdoor networking | IT infrastructure

Technical Specifications

Specification	Details
SKU	5879
Product Type	Outdoor Network Cabinet
Rack Capacity	6U
Dimensions	600 × 450 mm
Protection Rating	IP55
Material	Steel construction
Steel Thickness	1.1 mm
Installation	Wall mount
Front Door	Lockable front glass door
Cooling	Built-in cooling fan / ventilation support
PDU	Not included
Features	Dust and water resistance, secure locking system, ventilation support
Performance	Reliable protection and cooling for network equipment
Applications	Fiber optic systems, telecommunications, surveillance systems, outdoor networking, and IT infrastructure
